Annual Department Reports.

THE TREASURY.

Secretary McCulloch's report congratulates the country on the good condition of its finances, and that no ill effects have been experienced on account of a redundant currency. He believes that a revised tariff and revised revenue laws would tend to a resumption of specie payments; but he is opposed to any legislation as to the time of the resumption. The report shows that up to date $627,620,350 seven-thirty bonds have been funded into five-twenty bonds, leaving on December 1st only $2,863,150 seven-thirty notes outstanding. All the compound interest notes which became due between June 10, 1867, and October 15, 1868, have not been redeemed, but many have been redeemed for three per cent. certificates. This policy of funding was regarded as tending strongly toward resumption of specie payments. Mr. McCulloch's views as to the contraction of the paper circulation are unchanged. The Secretary estimates the expenses of the fiscal year ending June 30, 1870, at $260,000,000, which would be increased in the event of an Indian war. The War Department this year will not require so much for bounties as last. The annual interest on the public debt was about $140,000,000. The estimates of the Navy Department are $15,000,000 less than last year.—The internal revenue this fiscal year will amount to $120,000,000. The Secretary's report shows that the public debt has been *increased* during the year, from November 1, 1867, to November 1, 1868, $35,624,152.82, and not decreased that amount, as has been stated in a telegraphic abstract.

THE CURRENCY.

Mr. Hulburd, Comptroller of the Currency, suggests in his report that National Banking Associations that go into voluntary liquidation be required to provide for their outstanding circulation, and take up their bonds within six months, thus to prevent banks owned by two or three individuals from avoiding taxation, evading the requirements of the Currency act, and still retaining the most profitable feature of a national bank—to have the benefit of a circulation guaranteed by the Government, without being a bank of discount or deposit. The Comptroller recommends that a National Bank be established in New York city, without circulation; that it should be owned by the National Banks themselves; that it should have one department for exchanges and redemption of National Bank notes into the lawful currency of the country, and another for general business. Such an institution would place the bank circulation at once upon the soundest footing. It would further prevent the evils mentioned in the last report, and the reverses, instead of being subject to the call of speculators, would be held exactly where needed. Mr. Hulburd, in referring to the periodical stringency which occurs in the money market of New York city, after stating the manner in which such a stringency is brought about, says "the fact that a banking interest with a capital and surplus of $10,000,000 could be placed at the mercy of a few unscrupulous men is evidence of some bad management. The error lies, first, in demand or call loans to brokers and speculators on collateral security, by which nearly one half the active resources of the banks are used directly to foster and promote speculative operations; secondly, certified checks or loans of credit to the same class of men, whereby stocks are inflated and immense operations are carried on daily upon fictitious capital; third, the payment of interest on bank balances, which, being payable on demand, must be loaned on call in order to avoid loss." As a remedy for panics, Mr. Hulburd says: "If the Treasury of the United States could hold in reserve a certain amount of legal tender notes in excess of the amount of money in regular circulation, to be advanced to banking institutions at a specified rate of interest upon the deposit of United States bonds as collateral security, a source of relief would be established which would effectually prevent a monetary pressure from being carried to any ruinous extent." In regard to specie payments, the Comptroller states that whenever the people conclude that it is more economical to conduct the business of the country on a specie basis, they can do so by making provision through their representative in Congress for the payment or withdrawal of paper currency, and through them removing the only embarrassment, directing that provision shall be made for the payment of the floating indebtedness of $385,000,000. Specie payment, and the restoration of public credit are in the reach, and depend upon the will of the people. The report closes with an allusion to free banking, which we copy gentlemen "Whenever Congress shall inaugurate measures looking to the appreciation of the United States notes to a gold standard, the effect of such measures will probably be to diminish the volume of such notes in circulation. To what extent the reduction would have to be carried in order to place them permanently on a specie basis would at present be mere matter of speculation. Doubtless a large amount might be carried, with profit to the government and benefit to the public, as soon as the effect of such measures becomes apparent, by the gradual appreciation of legal tender notes to a par with gold. The restrictions imposed upon the issue of circulating notes by National Banks may be safely removed, provided the establishment of a central redeeming agency in the city of New York, at which all National Bank notes are redeemable at par, shall be required by law. Any inconvenience resulting from a reduction of legal tenders may thus be remedied, and the remedy will be in the hands of the only competent judge of the necessities of the case, the business public of the United States.

THE ARMY.

Secretary Schofield in his annual report says the strength of the army on September 30th was 48,001, which by January will be reduced by the expiration of term of service alone to about 42,000. No recruiting is in operation except for the cavalry service. All volunteer officers except one has been mustered out of the service at the suggestion of Gen. Sherman. Authority was given on October 6th for the muster in of one regiment of volunteer cavalry from Kansas, whose service is not expected to exceed six months for service against the Indians. It may, the Secretary says, be reasonably expected that a considerable reduction of the army may be made within the next year. He recommends such a reduction, authorized by law, to be made gradually by ordinary casualties, by discharge of incompetent officers and by consolidation of regiments. The Secretary also recommends that the four regiments of Veteran Reserves be disbanded, officers unfit for service to be retired, and others to be transferred to active regiments. The term of enlistment ought to be increased to five years. The disbursements of the Pay Department during the last fiscal year amounted to $60,000,000. The disbursements for reconstruction have been $2,500,000. Bounty claims to the extent of $2,500,000 have been paid. It is estimated that $65,602,388 85 will be required for the War Department for the next fiscal year. The estimated deficiencies for the current year are, however, $13,975,600. In speaking of Indian affairs he says it is proved beyond dispute that the trouble was begun by the Indians without any provocation whatever. Its object is supposed to be the abandonment of the Smoky Hill route, which is the best hunting ground in America, and he endorses Gen. Sherman's remedy to secure peace, viz.: coercion. The rest of the war report is an unimportant review of the military districts, which has been anticipated by the publication of the reports of the district commanders.

THE NAVY.

The report of Secretary Wells shows the present naval force, the different squadrons and the vessels attached thereto, the injury and destruction of vessels by earthquakes, the reduction of force in navy yards, speaks of the survey of the North Pacific, the Ironclads and League Island, and contains the amount of expenses for the past fiscal year and estimates for the next. It also has chapters devoted to the reports of the several bureaus of the Department.

One of the most interesting feature of the report is an account of the extended tour of Admiral Farragut. The exhibit of the naval force shows 206 vessels carrying 1,743 guns. Of these vessels 42 are in squadron service, 3 in special and lake service, 1 apprentice ship, 10 practice vessels, 6 receiving ships, 19 for officers' quarters, tugs, &c., 46 iron-clads laid up, 5 iron-clads unfinished, 15 steam sloops not completed, line of battle ships not completed, and other vessels laid up fitting for sea and for sale. Of these vessels 35 are first, 37 second, 76 third, and 38 fourth class.

The organization of the squadrons remains essentially the same as when the last annual report was made. Some changes of commanding officers and of vessels have taken place, and the force of each squadron has, in consequence of the limited number of seamen allowed by the act of the 17th of June last, been necessarily reduced.

The Secretary states that the navy has done all it could for the protection of our commerce and ship interests with the limited number of vessels employed, and that throughout Europe the rights of American citizens are respected, and wherever the flag has been carried by the navy the privileges to which they are entitled have been asserted and maintained.

The report goes on to narrate the voyage of Admiral Farragut, and the flattering reception extended to him by the Governments of all the countries visited by him. The Asiatic squadron, commanded by Commodore Goldsborough, is composed of the following vessels: Piscataqua, flag ship, 23; Oneida, 8; Iroquois, 6; Ashuelot, 10; Monocacy, 10; Unadilla, 5; Aroostook, 5; Mauma, 8; and Idaho, 7. The North Atlantic squadron, under command of Rear Admiral H. K. Hoff, consists of the Contocook, flag ship, 13; Saco, 10; Penobscot, 9; Yantic, 5; Gettysburg, 9; and Nipsic, 6. The South Atlantic squadron, under command of Rear Admiral Charles H. Davis, is composed of the following vessels: Guerriere, flag ship, 21; Fawnee, 11; Quinnebaug, 6; Wasp, 3; Kansas, 8. Two vessels were ordered home in consequence of the reduction of the naval force by act of Congress. The continuation of the war between the Allied Powers and Paraguay has rendered it advisable to keep some portion of the force within as convenient reach as practicable of military operations. There is little of interest in the reports regarding the North Pacific and South Pacific squadrons.

THE POST OFFICE.

Postmaster General Randall takes very high ground, in his annual report, in justification of the increase in the expenditures of the Post Office Department. The report is unusually full and exceedingly interesting. After setting forth the details of the increased mail service, and the various improvements and reforms established within the past two years, of which full statistics are given, he closes in the following pungent manner:

The increase of expenses of the postal service, based as it is upon the public necessity and public demand, instead of being the cause of discouragement, is a subject of congratulation.—The restoration of so large a part of the postal service suspended during the war, and the new service created by Congress since the close of the war, equal to one-third of the amount of service in operation at that time, have produced a less deficiency than existed, at the time of peace and prosperity previous to 1860. The proportion of deficiency to revenue is far less now than then, notwithstanding the service is very much greater than ever before. In 1859 the sum of this deficiency was only $1,000,000 less than the entire revenue; in 1860 the sum of the deficiency was about $3,500,000 less than the entire revenue; for the year 1868 the deficiency is $10,000,000 less than the entire revenue. The majority of the Southern States have never paid their own expenses for postal service. They will not do so for a long time to come. With the exception of Iowa and Missouri, none of the States or Territories west of the Mississippi River have ever paid a revenue equal to their postal expenses. The cost of the transportation of mails in all new States and Territories, and in all sparsely populated portions of the country, never has been paid by those States or Territories out of their own revenues. It is only as population and business increase, and the country is developed, that the postal service can be self-sustaining. The idea that the Post Office Department can be self-sustaining, in the present condition of the country, is absurd. It cannot be, and ought not to be, for fifty years to come. The revenues will largely increase, and so will expenditures. Ten years hence, I estimate the expenses of the Post Office Department at $40,000,000 and the revenues at $30,000,000. This increase must go on as long as the country prospers, and mineral, agricultural and commercial business increases. The mines are not yet all developed, the lands are not all cultivated, the rivers are not all navigated, the railroads are not all surveyed, the cities are not all built, the sea has not given all we have a right to exact. Our country is not finished. Until it is finished, he is not a wise nor a sagacious man who assumes that the postal service will pay for itself. The Post Office Department can be made self sustaining in one way, and that is by cutting off the postal service in the States and Territories where the receipts for postage are not equal to the expenses. This would exclude all but Iowa and Missouri west of the Mississippi, and all the States overborne by the rebellion. It could further economize by withdrawing all aid from the China, Brazil and the Sandwich Islands steamship lines, saving $825,000. It could save $995,000 by abolishing the letter-carrier system for the cities. It could also economize to the extent of over $700,000 by overturning the system of postal cars. It is true that, in the public estimation, the letter carriers for cities are thought to be almost indispensable, but the system costs money and brings small revenue. It is all disbursement and no receipt. What if from twelve to twenty-four hours are saved in the transmission of mails between Washington and Cincinnati, or St. Louis, or Chicago, and the whole West and Northwest, by these traveling post offices, which put off and receive mails while traveling at thirty miles an hour, and which receive mails, make up mails and distribute mails as they go hurrying along? It costs money, and the Government, like a miser, can keep its money in its chest. It gives no return and helps nobody, but is safely hoarded. A halting, timid, illiberal policy like this will save one million and lose twenty. Every dollar put out by the Government for subsidies to build railroads, in subsidies to old ocean commerce, in liberal appropriations to open lines of travel and develop material resources in a great nation like this, is money put out at exorbitant usury, and will bring returns in the development of material wealth, and in making the nation great and rich and strong in everything of value and interest to a great people.

THE INTERIOR.

The Secretary of the Interior in his annual report says that the quantity of public lands undisposed of is 1,465,368,678 acres. The amount disposed of during the last year is 666,574,250 acres. The Secretary devotes a good portion of his report to the Pacific railroads, and on the whole speaks of them in excellent terms.

New Appliance of Blacklegism.

On the persons of two gamblers recently arrested in Louisville, were found circulars of a New York house describing the following ingenious contrivance for plucking unwary pigeons:

THE BUG.

This is a new invention, intended to assist the player in "holding out" any number of cards, and it will do it! It is very simple in its construction, easy to operate, and every person who knows that 2 and 2 are 4 can use it. It can be carried in the vest pocket all the time, and is always ready for use, not liable to get out of order; and should it do so, any watch maker can put it in order for a trifling amount, as the whole expense of manufacture is only about fifty cents. Then why ask $3, you may say. For this reason—that one is all you would ever want to buy, as they do not wear out like cards. Also, after using it you can get one made as well as "any other man," and you will wonder that the thing was never thought of before. With it you can "hold out" one or more cards, shift and make up your hand to suit, and your hands and person are at perfect liberty, your opponent may look in your lap and up your sleeve—there is nothing to be seen! After having used it once you would not be without it for any price, as, like all good inventions, its simplicity is a great point in its favor.

THE SPT.

This is also an entirely new article made of silver and brass. It is intended to be placed among your bills when playing any game. It is entirely concealed from your own and opponent's sight. It is to be used when you deal. By letting the back of the hand rest upon a concealed spring a beautiful reflector comes into proper position, and remains there just as long as you are dealing; then goes out of sight when you are done.

With this you can tell every card your opponent holds in his hand, and play accordingly. This is valuable, as it can be played upon smart men as well as suckers. It is neat and compact, and can be carried in the pocket without getting out of order; can be picked up with the money when not wanted.

SADDLERY.

STILL FURTHER DECLINE
IN PRICES!
On and after October 1st, I will sell Harness at the following rates:
Double Jap. Harness,
That we have been selling for $50 and $55, we will now sell the same Harness for $45 and $50.

ON THE AMERICAN & EUROPEAN PLAN,
Cor. Beekman and Nassau streets,
Near City Hall Park, New York.
GEORGE WIGHT, Proprietor.
N. B.—Located in the very heart of the wholesale business, this is one of the most recently located Hotels for Merchants, Business men and others visiting the city dec5-10m.

TO OIL OPERATORS.
I have invented a new and useful instrument for
Searching and Scraping
the walls in Oil Wells, removing the Paraffine or other substance from the sides of wells, and indicating the locality of any Crevice, be it ever so small. This
CREVICE SEARCHER & SCRAPER
has been used in a number of Wells, and all who have used the working pronounce it to be far preferable to anything now in use, as it will make the same record in coming up as when lowered into the well, and the same the second time as the first, and will not indicate a Crevice for every Spall that may have been broken out of the rock when the well was being drilled, and thus lead the well owners to Explode Torpedoes or Take their wells in the wrong place and consequently a great expenditure of time and money without any beneficial results.
I will guarantee to all who may favor me with their Custom, that they will be satisfied that the record furnished them of their wells is correct and reliable.
All orders directed to me at Titusville, Box 326, or left at my residence on Church Hill will be promptly attended to.
Titusville, Nov. 9, 1868. RICHARD SHARP.

THE WHEELER & WILSON

SEWING MACHINE,

has been before the public for Eleven years. It has been subjected to the

SEVEREST TESTS

and the most bitter

COMPETITION.

It comes to the

FIRST PREMIUM

at the

WORLD'S FAIR IN LONDON

and at the

French Exposition in 1867,

where all machines of any note were in competition and its sisters now are great in than those of any other machine.

Over 350,000

of them are now in use working in all parts of the

UNITED STATES,
EUROPE,
BRITISH AMERICA,
WEST INDIES,
CENTRAL & SOUTHERN AMERICA, TURKEY, INDIA, CHINA & JAPAN,

and to-day it stands, in the language of the *Scientific American*,

"WITHOUT A RIVAL,"

foremost among

Family Sewing Machines,

both in Europe and America. A machine whose merit has achieved such success, warranted three years by a responsible company, brought to the home of the purchaser without charge, and instruction given in the use, is no *experiment* to buy, and we know of no better one which proves to be the best after bringing more comfort, health, happiness and relief to the household.

Prices from $55 to $120, according to finish and ornament. Call and examine the machine.

MIDNIGHT DISPATCHES.

BY THE WESTERN UNION LINE.

VERY LATEST NEWS.

General News.

NEW YORK, Dec. 11.

Dawson's leather manufactory in Newark, N. J., was partially burned last night. Loss $20,000.

Jas. Fiske prints a card to show that Vanderbilt was paid a million dollars last July to discontinue his suit against the company.

The Herald's Madrid special says: The insurrection has assumed a more alarming character than at first reported. Telegrams from Cadiz announcing the surrender of the insurgents proves erroneous. On the first day of the revolt the insurrectionists succeeded in taking some pieces of artillery, and have occupied an important position. Gen. Deroda, at the head of a considerable military force, is preparing for a vigorous assault on Cadiz. The National Guards are employed to keep order and protect property in Madrid. Great excitement prevails in Madrid and other towns at the alarming state of affairs. As yet Cadiz is the only town in revolt. A rising is expected momentarily in Calatonia. Arms and munitions of war have been landed in Cadiz, and it is said the party in revolt is well supplied with them. They have also plenty of money, and are determined to fight to the last. The American flag is respected by both parties, and hundreds seek protection from the American Consul at Cadiz. There is an American war vessel in port, and the Danish and Italian vessels are placed at the disposition of the American Consul. Many rich families are leaving Spain. Gen. Prim has gone to Andalusia. The Government is much embarrassed owing to the unsettled state of the country and the impoverished condition of finances.

The Herald's London special says. The following intelligence from Crete has been received via Athens. The Turks captured a strong position at Spitakia, where the insurgents had erected a block house. They also seized a quantity of provisions and war material intended for the Cretans and had taken possession of two landings on the shore of the island nearest Greece. It is reported that in consequence of these advantages gained by the Turks, the insurrection is dying out.

Judge Cardovo yesterday, after hearing papers read in the Erie case, adjourned the case until Saturday, issuing an order to restrain Receiver Davis in the meantime from handling the property of the Erie Company.

At an interview with Ben Wade, he is reported to have derided Chase and Seymour, pitied Blair, denounced R. H. Dana and the opponents of Butler as aristocrats who made asses of themselves in trying to appease their English pride of birth, and declared Reverdy Johnson to be a toady. The settlement of the Alabama claims was easy enough if we made the simple protocol. He favored universal manhood suffrage and the transfer of the Indian Bureau to the War Department.

The Herald advocates the funding of the public debt at a low rate of interest and steady liquidation of the principal. It refers to the public debt and says it is the imperative duty of Congress to ponder well the gigantic projects for robbing the Treasury now before it in the shape of subsidies for private speculations.

The Tribune to-day says of the President's message: It is exceedingly desirable that we should begin forthwith to fund our past due 5-20's at a lower rate than 6 per cent., but Johnson and fellow repudiators seem resolved that we shall never be able to do so. This message will compel our people to pay many millions in 6 per cent interest which they could have saved had our President been content with the pyramid of disgrace he had already laboriously erected. Only twelve weeks more and the country will be rid of him forever. It is hard, but we can endure him twelve weeks longer. Thank heaven he has only power to disgrace us.

The Lafarge property, known as the Southern Hotel on Broadway, was sold at auction yesterday for $871,000.

The Tribune says of the proposed termination of the contract with the New York Associated Press, that the actual reason why the telegraph company gave the notice was because of severe strictures against the personal integrity of the managers of the Western Union Company, and they did not deem it their duty to be bound to the Association by contract while one of the members of the Association felt at liberty to impugn the personal character of the officers.

There is a good deal of consternation among custom officers at the rumored approach of a general decapitation.

The Democratic Soldiers' and Sailors' Association of Brooklyn has become a permanent institution. It is provided that members taken sick shall be taken care of, and in case of death, funeral expenses will be defrayed by the Association.

It is rumored the New York Yacht Club will probably throw out a challenge to all the world for a trial of speed of yachts of the several nations.

Travel Resumed.

ST. LOUIS, Dec. 11.

A Denver dispatch says: Daily service from Denver to the Western terminus of the Kansas Union Pacific Railroad was resumed yesterday. The fare from Denver East is the same as via Omaha.

Annual Message of Gov. Taft, of Montana.

A Virginia City, Montana, telegram of the 9th says: Acting Governor Taft delivered the annual message to the Legislature to-day. He recommends the encouragement of emigration to Montana from northern Europe, as a counterpoise to the rapid influx of Chinamen, favors legislative assistance for the better development of the mining interests, and asks for an improvement of the school system.

Bridges Repaired Cold Weather.

An Omaha dispatch says: Repairs to the temporary bridge were completed this morning. About one thousand cars of freight were collected on the east bank waiting transportation. No further interruption to crossing is anticipated. The cold weather for the past three days has made the passage of the river by teams perfectly safe. The thermometer this morning was eight degrees below zero, and to night the indications are that to-morrow will be much colder.

Personal.

General Blair and Commissioner Rogy arrived from the West and left for St. Louis.

The Indians—Cold Weather.

Late arrivals from the Upper Missouri Reservation report the Indians quiet and satisfied. Large numbers of Sioux, including Spotted Tail, occupy the reservation above Fort Randall. The weather was intensely cold last night for this latitude; the thermometer at eight o'clock this morning marked seven degrees below zero.

Death of Helen Western.

WASHINGTON, Dec. 11.

Helen Western, the actress, died this morning after an illness of a week's duration. The remains will be taken to Boston to-day.

Army Officers Going to Chicago.

Gen. Grant was at army headquarters to-day attending to business. He will leave to-morrow afternoon to attend the reunion of the societies of the Western Armies at Chicago. A large number of army officers will leave at the same time for the same purpose, including Major Generals Scofield, Thomas and Terry, Generals Babcock and Campbell, of Gen. Scofield's staff, and many others. A very large crowd of visitors paid their respects to Gen. Grant this morning, including many Senators and Representatives, as well as Major General Stoneman, commanding the First Military District, who arrived this morning.

General Meade.

Major General Meade has been directed to report in this city on public business, at such time as in his judgment the public interests will permit.

Attempted Poisoner Arrested.

CINCINNATI, Dec. 11.

Allen Skeen, living near Hillsboro, Ohio, was arrested charged with attempting to poison the family of his mother-in-law by placing strychnine in the well bucket. There had been some ill feeling between the parties previous to the occurrence.

Cold Weather.

CHICAGO, Dec. 11.

The intense cold weather continues. Early this morning the thermometer in the city ranged from 10 to 14 degrees below zero. At Cairo it was one degree below this morning, which is remarkable for the latitude. The Mississippi is frozen over as far down as Cairo. At Quincy last night the thermometer reached 13 degrees below zero.

Gen. Grant.

A special from Washington says: Gen. Grant and staff will leave to-morrow evening for Chicago.

Burglar Killed.

Geo. Langston, Sheriff of Brown Co., Missouri shot and killed a professional burglar named M. N. Hill at Green Bay on Monday while he was attempting to escape from him. He had been arrested by the Sheriff on a stage coach by authority of a telegraphic dispatch from Marquette. Three or four shots were exchanged between the Sheriff and the burglar before he was brought down. He had on his person a draft drawn by Ives & Son, Detroit, on P. M. Everet & Son, bankers of Marquette, which he had undoubtedly stolen.

Woman Burned to Death.

Maggie Wiseman, a chambermaid at the Adams House, Oshkosh, Wisconsin, was burned to death on Wednesday night by the upsetting of a Kerosene lamp. She was partially undressed and just on the point of retiring when the accident occurred. She was so terribly burned that her body could not be laid out, and she had to be wrapped up in the sheet in which she died and laid in her coffin. She had been employed in the house two years and was highly respected.

The London Press on the President's Message.

LONDON, Dec. 11.

The Daily News says of President Johnson's message, that his persistent opposition to the will of the nation is the cause of the partial failure of his message. It considers that there is no hope for the restoration of peace and unity in America until the accession of Grant to the Presidency.

The Morning Standard strongly deprecates the refusal of the Senate to listen to the President, and pronounces such action as disrespectful to the Executive.

The Morning Herald says: The message commends itself to everybody interested in American affairs. It is the warning protest and testament of a statesman politically dying.

PETROLEUM MARKETS.

OFFICE OF THE MORNING HERALD, TITUSVILLE, Dec. 11, 1868—5 P. M.

The Petroleum market was strong and active all day, and prices had advanced thirty cents at Oil City and from five to ten cents along the Creek, by the middle of the afternoon. The transactions occurred mainly among the dealers, as the stock at the wells had been nearly exhausted by the large sales of the three or four previous days. The principal operators continue to be those purchasing for New York and Cleveland. The demand for Pittsburgh was, however, stronger to-day than on any other since the beginning of the present rise and sales aggregating 4,500 barrels were made for that market. One of them was of 2000 barrels S. O. all 1869 delivered at Pittsburgh, at 12½c. The demand for New York was in excess of that for Cleveland, and offers to buy were reported in the afternoon as high as $4 90 at Titusville, for January delivery.

PITTSBURGH OIL MARKET.

PITTSBURGH, Dec 11.

Crude—The Crude oil market continues firm and prices are unchanged from those ruling yesterday. We can report the following sales: 1,000 bbl S. O. Dec, 45 to 45 gr. at 12½; 1,000 bbls S. O. first six months of 1869, 44 to 46 gr. at 12½c. 5,000 bbls S. O. from April to Dec 1869, 43 to 46 gr. at 12½c.

The Refined oil market is quiet but prices are firm. We report retail sales as follows: 500 bbls. deliverable Dec. 21st, at 32c. We note spot and Dec. nominal at 32, and Jan at 32½ @33.

The shipments eastward yesterday amounted to 1,575 barrels.

MONEY AND STOCK MARKETS

The Post evening city of the 10th, says: The gold market has been very active during the morning. The opening sale was at 35, 6 from which the premium gradually fell off to 135½, but has since advanced to 136. The cause of the gold loan mark time decline free supply of gold, and that the number of operators who have of late been making advances. The rate paid for carrying rapidly advanced from per cent to seven, while later no 11 had a fraction per cent, and day was charged.

Money is tight at seven per cent. This rate was established in Broadway at the banks and trust companies, but among private lenders. The demand from stock brokers and others in government bonds, however, is not as large as the average. Indications are favorable for a lower per cent. market for the remainder of the year. The volume of business in commercial paper is unusually small, and rates are as high as last quoted.

GERMAN BITTERS.

HOOFLAND'S GERMAN BITTERS

AND

Hoofland's German Tonic.

The Great Remedies for all Diseases

OF THE

LIVER, STOMACH OR DIGESTIVE ORGANS.

HOOFLAND'S GERMAN BITTERS

Is composed of the pure juices (or, as they are medically termed, Extracts) of Roots, Herbs and Barks, making a preparation highly concentrated and entirely free from alcoholic admixture of any kind.

Hoofland's German Tonic,

Is a combination of all the ingredients of the Bitters, with the purest quality of *Santa Cruz Rum*, Orange, &c., making one of the most pleasant and agreeable remedies ever offered to the public.

Those preferring a Medicine free from Alcoholic admixture, will use

Hoofland's German Bitters.

Those who have no objection to the combination of the Bitters, as stated, will use

Hoofland's German Tonic.

They are both equally good, and contain the same medicinal virtues, the choice between the two being a mere matter of taste, the tonic being the most palatable.

The stomach, from a variety of causes, such as Indigestion, Dyspepsia, Nervous Debility, etc., is very apt to have its functions deranged. The Liver, sympathizing so closely as it does with the Stomach, then becomes affected, the result of which is that the patient suffers from several or more of the following diseases:

CONSTIPATION, FLATULENCE, INWARD PILES, FULNESS OF BLOOD TO THE HEAD, ACIDITY OF THE STOMACH, NAUSEA, HEARTBURN, DISGUST FOR FOOD, FULNESS OR WEIGHT IN THE STOMACH, SOUR ERUCTATIONS, SINKING OR FLUTTERING AT THE PIT OF THE STOMACH, SWIMMING OF THE HEAD, HURRIED OR DIFFICULT BREATHING, FLUTTERING AT THE HEART, CHOKING OR SUFFOCATING SENSATIONS WHEN IN A LYING POSTURE, DIMNESS OF VISION, DOTS OR WEBS BEFORE THE SIGHT, FULL PAIN IN THE HEAD, DEFICIENCY OF PERSPIRATION, YELLOWNESS OF THE SKIN AND EYES, PAIN IN THE SIDE, BACK, CHEST, LIMBS, ETC., SUDDEN FLUSHES OF HEAT, BURNING IN THE FLESH, CONSTANT IMAGINING OF EVIL AND GREAT DEPRESSION OF SPIRITS.

The sufferer from these diseases should exercise the greatest caution in the selection of a remedy for his case, and should be guided by the testimony of those who have tried it, and inquiries should be made as to its merits, as it is well known that many of the spurious nostrums now offered to the public are worthless, and have established for themselves a reputation for the cure of these diseases. In this connection we would submit those well-known remedies—

Hoofland's German Bitters,

AND

Hoofland's German Tonic

PREPARED BY Dr. C. M. JACKSON,

PHILADELPHIA, PA.

Twenty-two years since they were first introduced into this country from Germany, during which time they have undoubtedly performed more cures, and benefited suffering humanity to a greater extent, than any other remedies known to the public.

These remedies will effectually cure Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, Chronic Diarrhœa, Diseases of the Kidneys, arising from a Disordered Liver, Stomach or Disordered Liver, Intestines.

DEBILITY.

RESULTING FROM ANY CAUSE WHATEVER; PROSTRATION OF THE SYSTEM, INDUCED BY SEVERE LABOR, HARDSHIPS, EXPOSURE, FEVERS, &c.

There is no medicine extant equal to these remedies in such cases. A tone and vigor is imparted to the whole system, the appetite is strengthened, food is enjoyed, the stomach digests promptly, the blood is purified, the complexion becomes sound and healthy, the yellow tinge is eradicated from the eyes, a bloom is given to the cheeks, and the weak and nervous invalid becomes a strong and healthy being.

PERSONS ADVANCED IN LIFE,

And feeling the hand of time weighing heavily upon them, will all its attendant ills, will find in the use of the BITTERS, or the TONIC, an elixir that will instil new life into their veins, restore in measure the energy and ardor of more youthful days, build up the shrunken forms and give peace and happiness to their remaining years.

NOTICE.

It is a well established fact that fully one-half of the female population are not in the enjoyment of good health; or, to use their own expressions, they are languid, devoid of energy, extreme ly nervous, and have no appetite.

To this class of persons the BITTERS, or the TONIC, is especially recommended.

WEAK AND DELICATE CHILDREN

Are made strong by the use of either of these remedies. They will cure every case of MARASMUS, without fail.

Thousands of certificates have accumulated in the hands of the proprietor, but space will allow of the publication of but a few. Those, it will be observed, are men of note and of such standing that they must be believed.

TESTIMONIALS.

HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pa., writes:

PHILADELPHIA, March 16, 1867.

"I find 'Hoofland's German Bitters' is a good tonic, useful in digestive organ complaints in cases of debility, and want of nervous action in the system.

Yours, truly, GEO. W. WOODWARD."

HON. JAMES THOMPSON,

Judge of the Supreme Court of Pennsylvania

PHILADELPHIA, April, 28, 1866.

"I consider 'Hoofland's German Bitters' a valuable medicine in cases of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect, JAMES THOMPSON."

FROM REV. JOSEPH H. KENNARD, D. D.

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—*Dear Sir*—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I declined, but have since been in the habit of using your preparations with a clear conscience, and my own family, and in various instances in my ministerial capacity, I have recommended the use of Hoofland's German Bitters. I depart for once from my usual course, to express my full conviction that, for general *debility of the system, and especially for Liver Complaint*, it is a *safe and valuable preparation*. In some cases it may fail, but usually, I doubt not, it will be very beneficial to those who suffer from the above causes.

Yours, very respectfully, J. H. KENNARD,

Eighth below Coates Street.

FROM REV. E. D. FENDALL,

Assistant Editor of Christian Chronicle, Philadelphia.

I have derived decided benefit from the use of Hoofland's German Bitters, and feel it my privilege to recommend them as a most valuable tonic, to all who are suffering from general debility or from diseases arising from derangement of the liver.

Yours, truly, E. D. FENDALL.

CAUTION.

Hoofland's German Remedies are counterfeited. See that the signature of C. M. JACKSON is on the wrapper of each bottle. All others are counterfeit. The genuine Hoofland's German Medicines are put up at the Principal Office, No. 631 ARCH Street, Philadelphia, Pa.

CHARLES M. EVANS, Proprietor.

Corinthian Hall—Sherry's Theatre.
List of Letters—J. R. Barber, P. M.
Drug and Chemical Warehouse—E. K. Thompson.
Engines for Sale—C. A. Dorley.

Varieties.

—During the last three months the receipts of the Philadelphia theatres were $100,000.

—The oldest tannery in the country is said to be at Bethlehem, Pa., established in 1763.

—The Sabbath School of the M. E. Church are to have an entertainment on Christmas eve.

—The Corry Baptist Church Festival held there last week at the Academy of Music netted $150.

—The thriving villages of New Castle and Sharon are agitating the question of a city charter for each.

—On Wednesday morning, the 2d inst., the mill belonging to O. Horton, some four miles south of Union Mills, was burned. Loss estimated at $5,000. Insurance for $2,500.

—A teamster of Sharon, Mercer county, known as Dutch Henry, a dissipated character, hung himself with his comforter in the lock up in that place, on Monday evening. He had been arrested for being drunk and disorderly.

—Deer is said to be plenty on the mountains and in the forests west of Harrisburg. A party of hunters went out from Manada one day last week and shot a fine buck and saw several more which they shot at but failed to kill.

—The Titusville and Pithole Plank Road Company advertise for 600,000 feet of four inch hemlock plank for their road. As soon as the weather will allow, in the spring, extensive repairs will be made. Nearly the whole will be relaid.

—Pedestrian Western, who started on the 1st of December to walk from Bangor, Me., to St. Paul, Minn., and return, has added another to his numerous failures. He proceeded as far as Biddeford, Me., when he abandoned his undertaking in consequence, as is asserted, of a serious lameness which came upon him.

—Delmar is reported to be greatly enraged because Secretary McCulloch's report fails to sustain his figures. Delmar said that the country would have to borrow $1,500,000 during the present year over and above its income. Secretary McCulloch shows that we will pay our expenses and have $50,000,000 left to apply on the debt.

—A little boy, says the Franklin *Spectator*, was burned to death near the mouth of Two Mile Run, Allegheny River, on Wednesday morning last. The unfortunate child, with other children, was playing about a brush fire out doors, when one of the other children pushed him into the flames with the fatal result, as above stated.

—It is rumored that the Erie Railway Company have effected a lease of the Atlantic & Great Western Railway, and that Mr. Jay Gould will discharge the debts due the Receiver and take charge of the road under the control of the company. We are without any particulars concerning the rumored change, but the facts will all appear in a few days.

—On Thursday of last week, a child of Mr. H. Webb, of Vallonia, near Meadville, was drowned in the old channel of French Creek, by breaking through the ice. Three children were on the ice at the time, two of which were Mr. Webb's, and both the latter sank to the bottom, the other escaped to the shore. One child was taken out seventeen minutes after, and resuscitated, but the other remained in the water a half an hour and was taken out of the water a corpse.

—Heretofore the President's annual message has been referred to the Committee of the Whole on the state of the Union for debate, and the several parts distributed among the appropriate standing committees. The action of the House Wednesday in merely ordering the usual number of copies printed, and the laying of the message on the table, is believed to be the first instance of the kind in Congressional history with regard to the President's annual message.

—There are now several individuals confined in Philadelphia under sentence of death; one of whom has been in prison for eighteen years, no death warrant having been issued. For several years past the Legislature has been asked annually to make some disposition of their cases; to authorize the Government to commute their sentences to imprisonment to a term of years. The Legislature, at its coming session, will be asked to make some special provision for these cases, including that of Hester Vaughan, and, if action is taken, the probabilities are that Hester's sentence will be commuted.

—On Thursday of last week the Grand Lodge, A. Y. M., of Pennsylvania, met at the Masonic Hall, Chestnut street, Philadelphia. The attendance was large, and after the transaction of business relative to the order, the following officers were elected for the ensuing year: R. W. Grand Master, Richard Vaux; R. W. Deputy Grand Master, Robert A. Lamberton; R. W. G. S. Warden, Samuel C. Perkins; R. W. G. J. Warden, Alfred A. Potter; R. W. Grand Secretary, John Thompson; R. W. Grand Treasurer, Peter Williamson. The installation of officers will take place on St. John's Day.

HERALD BLOCK.—For about three months the lower floor of this block has been unoccupied, but now it is all rented and soon will be in the full blast of business. The front store will be opened on Monday next by Messrs. Mirablfield & Wile with a full line of clothing and gents' furnishing goods. The middle store will be fitted up and become the office of Capt. Henry E. Wrigley. In the rear store Messrs. Maguire & Crittenden have opened a wholesale liquor house, occupying also the basement. The basement of the middle store is rented to Mr. E. C. Sanderson for storing ales, &c. The front basement is unoccupied and would make a very desirable place for many kinds of business, especially for the commission business in butter, cheese, eggs, cut meats, apples, potatoes, &c. Such an establishment would find a large line of trade. The entire upper story, formerly Crittenden Hall and City Hall is used by the HERALD office. We understand that the Express office will be moved on the first of January to Wahl's building on Washington street.

ROSEDALE ON THE RIFLE BALL was the attraction at Corinthian Hall last evening—a large audience being present. This play is the finest and most enjoyable presented by Sherry during his stay in this city, and the hearty encores that greeted the finer parts showed that those present appreciated the superior manner in which it was produced. This is the first time that this original and highly sensational play of Wallack's has been presented in Titusville, but its success after the fall of the curtain upon the first act was fully established. Mrs. Jennie Carroll sustained the character of Lady Florence in a manner that only served to render more of a favorite than ever, while J. F. Sherry as Elliot Gray, was excellent as usual. This afternoon a matinee for the benefit of ladies and children will be given, "Uncle Tom's Cabin" is the attraction. Messrs. Sherry, with their usual liberality, have kindly invited the Soldiers' Orphan School to attend. In the evening "Kathleen Mavourneen" and "Pocahontas" will be presented.

Greeley for Minister to England.

For a long time the newspapers engaged in selecting a Cabinet for Gen. Grant, generally conceded the appointment of Horace Greeley to the position of Postmaster General. But of late this idea has been abandoned and his nomination as Minister to England is a suggestion which is meeting with more popular favor. If as reported there is to be a change in the British Ministry, it would be equally appropriate that Mr. Reverdy Johnson, whose singular negotiations with the present Ministry have excited such mortification at home, should be also permitted to return to private life. Mr. Gladstone, the new Premier, was no friend of the Union during the war, but Mr. Bright, who has been invited to a seat, was warmly so. The only matter for adjudication is whether damages were inflicted upon American commerce by British subjects, under such circumstances as made their Government responsible. Johnson has played the part of toady, where the strong practical sense and directness of Horace Greeley would have exhibited itself in successful negotiations which the Senate would promptly endorse. Commenting upon Mr. G.'s probable appointment as Minister, the Springfield *Republican* says:

The idea is a happy one, and the country may well congratulate itself should it ever be realized. How refreshing it would be to have Mr Adams' courtly yet ever cold manners, and the supreme silliness of Reverdy Johnson, followed by the substantial, frank, heartiness and shrewd common sense of Horace Greeley. The English would think he was an odd stick at first, but he would fast grow into their respect, and finally into their affections; and it would be safe to predict for him a popularity and an influence among all classes of the English people such as no Minister of ours ever had there.

The Englishmen, who come over to see America, rarely fail to find out and appreciate Mr. Greeley. Thackeray, Dickens, Hopworth, Dixon, all knew him well, and liked him hugely, to express their feeling in their own hearty English way. Mr. Greeley is the apostle of sturdy sense and stubborn principle; that is what we want in a Minister to England; and that is what the English like best of all to deal with, as they think it is their strong point in character, and they welcome it in another as evidence of English blood and English adaptation.

Mr. Greeley stands in a position to command consideration from a Republican administration; he can hardly fail to be invited to the Cabinet, or a first-class foreign mission. The latter would doubtless be manifestly his preference; and since he is not a w[illegible] enough to be the editor of the *Tribune* as, in fact, he ought to be, we hope and cannot doubt he will soon and to the first place in America, the honorable title of Minister to England. And when his contemporaries in New York get him snugly over in London, we hope they will not forget how pleasant and profitable it has been for them all to speak and feel sweetly toward each other, and will keep on in a course that really is the first hope of the millennium, that our times now offer.

Another Loss at Sea.

The disaster to the Hibernia is quickly followed by another in the capsizing of the ship John Duncan, from St. John, N. B., in the middle of the Atlantic. The captain, his wife and nine of the crew were all who were saved.

A fuller account of the loss of the Hibernia says the principal cause of the disaster was the breaking of the screw shaft inside the screw pipe. The screw got lost and damaged the steam-chest and pipe, causing a fearful leak through which a large volume of water rushed into the hold. Every attempt was made to save the ship, but a strong gale prevailed at the time, with a heavy sea, and it was found impossible to stop the leak. The steamer was rapidly settling, when the boats were lowered, and the passengers and crew were all embarked. Excellent order was maintained by the ship's officers, who kept the crew under complete control, and prevented a panic among the passengers. The two boats previously reported saved, were picked up by the ship Star of Hope, bound for Aberdeen. The captain of the Hibernia was landed at John O'Groat's house.

The Spring Elections.

The Legislature will be asked to change the time of what are called the spring elections, when the municipal officers are elected, to the fall of the year, so that all our elections may take place as nearly as possible at the same period. It is conceded that we never poll a full vote at the spring elections, for the reason that the large mass of people are so engaged at that season that they cannot get to the polls, or afford the loss of time necessary to do so. On this account elections are frequently decided by minorities of the whole vote of a district, as well as by the most irresponsible portion of the community.—By changing the time of holding these elections, it is argued, we are certain to engage more interest in municipal affairs, and secure for cities, boroughs and townships a better class of men for officers. The judgment of men who have watched this matter closely is favorable to the change, and it is probable the Legislature will comply with public desire on this subject.

Petroleum Items.

We learn from a late London Petroleum circular that holders of oil took advantage of the low condition of stocks of Refined in England during last month to advance prices, and "corner" short sellers for that month. This movement was made at the same time that a similar one was in progress at New York. The stock of Refined in London on November 28th, was 21,050 barrels and 854 cases, against 60,102 barrels at the same date last year.

A day or two since the Monastery well on Church Run, struck about two months ago, was torpedoed, and has since barreled out eighty barrels per day. Previous to being torpedoed it did not produce over twenty barrels per day. The working interest being three-fourths of the oil, is worked by Messrs C. L. I. Winant and Charles Herman, of this city. The Church Run district is now producing fully 850 barrels per day. The production of last month rolled the producers $53,000.

The late collision at Fitchburg, Mass., between a portion of a freight train and a loaded crude oil tank car train, by which the latter was set fire to and destroyed, and the conductor of the train was burned to death, has been the subject of newspaper comment. Some of the papers in New York and Massachusetts want the Legislatures to make it a penal offence to carry oil in any tanks of single volume or in wooden tanks. Carrying oil in wooden tanks is highly dangerous, and is annually the cause of greater loss to the railroad companies than would be the cost of a sufficient number of iron tanks to replace those made of wood that are now in use. Iron tanks have been used wholly on one of the leading oil conveying railroads, and have been found to be actually much cheaper in the long run, and of course safer than the wooden tanks.

THE NEW MAP OF THE OIL REGION.—We are pleased to call attention to a large and minutely detailed map of this section of country, which is now publishing and will shortly be ready for delivery. Probably no territory containing half the amount of mineral wealth of ours has ever gone so long without careful delineation. Mr. Wrigley's map is on a large scale, being some five feet square, and showing each farm in separate colors over an area of 700 square miles. It has been compiled from his surveys and his collections of authorities during the last four years. For the purpose of facilitating delivery and securing the best copies, subscriptions are now being taken, which will be filled in their order with the first copies received.

FRESH whitefish, trout, cod, halibut, lobsters and clams at Shank's, opposite Bush House.

Good Templar Convention at Erie.

The Convention of Good Templars which convened in Erie Tuesday afternoon, adjourned Wednesday evening. During its session, S. B. Chase, Esq., G. W. C. T., of this State, presided, Azro Goff, Esq., G. W. C., of Pa., occupying the chair until the arrival of Mr. Chase. Twenty-two lodges of the order were represented by delegations from the various sections of the district.

The *Dispatch* reports the proceedings. A permanent organization was effected to be known as the "Semi annual Convention of the District of Northwestern Pennsylvania," to meet at such places as decided on at each session, and at such additional times as required by a proper call of the officers, or of six lodges in the district. The constitution adopted was substantially the same as that published by the Grand Lodge in the "Keystone Good Templar" for the guidance of District Quarterly Conventions, the only changes therein being in the substitution of "semi annual" for "quarterly," to which change the articles were all made to conform, and on article 3d to read "two delegates from each Lodge and one additional for every twenty four members in good standing," instead of "ten delegates" as published. Article 5th was amended to read "3d degree" in place of "subordinate."

The limits of the district were fixed to embrace the counties of Erie, Crawford, Venango, Warren, Forest, Mercer, Cameron and McKean.

Instruction in the unwritten work was given in the most comprehensive manner by G. W. C. T. Chase, who is the author of the digest adopted for the guidance of the Order throughout this country. The degrees were conferred in full, and much valuable information received in the work of the subordinate and high degrees.—Many questions of interest to all who were decided fully, and with perfect harmony and satisfaction.

The officers for the year 1869, for the permanent organization, were elected as follows:

Azro Goff, of Erie, W. C. T.
Mary Gerould, of Conewango, W. V. T.
R. P. Smith, of Erie, W. S.
W. F. Dalrymple, of Pittsfield, W. T.

The following were the appointed officers:

J. J. Taylor, of Warren, W. M.
Sarah N. Slade, of Harborcreek, W. D. M.
D. P. Hatch, of Tarr Farm, W. O. G.
Elmira Day, of Pleasantville, W. I. G.
Rev. Jas. F. Reid, of Union Mills, W. C.
Elizabeth Richardson, of Tidioute, W. R. H. S.
Mrs E. Day, of Girard, W. L. H. S.

Resolutions were adopted looking towards the establishment of a school and asylum for the children of inebriates, and recommending the use of unfermented wines at the Sacrament.

The large hall of Presque Isle Lodge I. O. O. F., was well filled, and the entire proceedings were characterized by the perfect harmony which existed. The inclemency of the weather prevented the attendance of many who would otherwise have been there, and their absence was a cause of general regret.

The Convention adjourned to meet at Warren, on the 2d and 3d days of February, 1869.

Pleasantville Items.

NEW WELL ON THE DAWSON FARM.

A new well was tested on the Dawson farm on Monday on Lease No. 2. It is located about sixty rods north-east of the old National well, and is producing from 70 to 80 barrels per day. The working interest is owned by A. C. Benson, C. P. Hatch and others. Two other wells on Leases 7 and 18 of this farm are being tested with good indications. The Dawson farm is owned by B. D. Benson & Co., S. Q. Brown and others.

NEW WELL ON THE ARMSTRONG FARM

A new well on the Armstrong Farm, called the Rice well, was struck a few days ago, and is producing about thirty barrels per day.

THEATRE THIS EVENING.

Humpty Dumpty makes his last appearance this evening at the Pleasantville Theatre, so that those who have not witnessed this amusing pantomime, should not miss this last opportunity. On Monday night Mr Carner and his excellent troupe will present the drama of "Rip Van Winkle, or the Twenty Years Sleep," and the favorite comedy of "Toodles."

FINE WATCHES AND JEWELRY

Mr. S. S. Mann, jeweler, who is located in J. A. Dunham's store, corner of Main and Second streets, has opened out a large and elegant stock of fine watches, clocks and jewelry for the holidays. Those who contemplate making Christmas gifts to esteemed friends, will do well to make an examination of Mr Mann's stock. His assortment embraces gold and silver watches of the Elgin, Howard and Waltham's American Watch Company's make, also fine English, Swiss and French watches for ladies and gentlemen, and a large variety of guard, lanatine and vest chains. His assortment of seal rings and moss agate sleeve buttons, is also very attractive. Mr. Mann will be found strictly honorable in his dealings, and purchasers can rely on the quality of his goods being as he represents.

ENTERPRISE.

The oil developments at Enterprise have not as yet proved very remarkable or startling, yet for the amount of capital invested here, the territory is proving a paying one, and the indications are that with the encouragements of the past fall's experience, operations in the spring will commence actively in this vicinity.

On the Benedict Estate Company's land, a tract of 450 acres located one-half mile this side of the village of Enterprise, there are several producing wells. One of them, the Willard well, has produced 26 barrels per day since it commenced pumping last October. The working interest is owned by Isaac Willard and others.

The McKinney wells, No. 1 and 2, are doing at present about 15 barrels each. No. 1 has been operated on several times by the Crevice Searcher and torpedo, and in every instance made to flow in considerable quantities for three to eight weeks at a time. The production at one time last summer was increased to 180 barrels per day by bringing the torpedo into requisition. Since April 21st, 1868, it has produced a little over 5,000 barrels of oil.

The Smith well on the same tract of land is producing at present about 10 barrels per day. This well has also been torpedoed, which sent its production up to 30 barrels per day for two or three weeks at a time.

The other wells on the Benedict Estate Company's land are producing from five to eight barrels each, and two of them has been pumping for over three years.

Messrs. Steele, Selden, and others, are putting down a well on the land belonging to Ames & Co., of Titusville, about three-fourths of a mile north of the Benedict Estate Company's tract.

Two more wells are going down on Miller, Riddle & Co.'s land in this same neighborhood.

At the village there is one producing well of about ten barrels per day, belonging to Messrs. Haines & Gay, of Boston. It is on the S. S. Benedict farm, and another on the same farm is in process of drilling.

ENGINES FOR SALE.—The attention of oil men is called to the advertisement in another column of one 8 horse power, and one 6 horse power portable engines, also one 12 horse power stationary engine for sale. All of them can be seen running at Pleasantville. Call on C. A. Darfey, Petroleum Centre, or address him there, P. O. box 106.

PRAIRIE CHICKENS, quail and wild ducks at Shank's; also the best oysters in the market wholesale and retail.

WELL No. 9, McKNIGHT FARM.—Yesterday one of Mowbray's torpedoes was exploded in this well, which for several weeks past has been doing but fifteen barrels per day, and the production was raised largely—not less than two hundred barrels per day. No. 1, on the same lease, is producing fifty barrels per day. Mr. A. K. Murray owns two-thirds of the working interest of this lease, ten acres, Mr. M. A. Morse owning the remaining one-third. The royalty, one fourth, is owned by Mrs. McKnight. We congratulate friends Murray and Morse on this accession to their good fortune.

OUR citizens will be pleased to learn that Dr. George J. Luce, who has been absent during the past summer, has returned and will resume the practice of dentistry on Monday next. The doctor's reputation is too thoroughly established to require comment.

THE instruction given at Edinboro is thorough and practical. Young persons cannot attend a better school. Address J. A. Cooper, Edinboro, Pa.

LOCAL NOTICES.

"DID you ever?" "No I never" did see such a quantity of beautiful holiday goods as there is at Esler's Variety Store.

WHAT is it? Call and see at Funk, Jackson & Fuller.

FINE assortment of Velvet Cloaks just received at R. D. Fletcher & Co.'s. A nice article. Call and see them.

HASSON'S Compound Syrup of Tar. T. B. Shugert & Co., Agents, Pleasantville.

FOUR Cases Children's Toys, Fancy Goods, Worsted, Canvas, &c., opened this morning at Esler's Variety Store.

CLARK, McEWEN & Co. are the sole Agents for selling E. W. Johnson & Co.'s celebrated Baking Powder. We wholesale at the same price it is sold at the manufactures.

HOW to keep the babies still. Buy one of those new baby swings at Esler's Variety Store.

A CARD TO OIL OPERATORS.—In order that parties desiring the services of DALE'S CREVICE SEARCHER may be informed where to send orders for same by telegraph or in person, we propose to publish in the local columns of the MORNING HERALD the whereabouts of the apparatus each day, so that it can be procured without any unnecessary delay.

It will be understood that we have two machines in daily operation, at different points, as follows: No. 2 is at Pet. Centre. No. 1 is now at Pleasantville. Information can be had at the Garland House, on the Titusville plank road, one-fourth mile from the corners, or of

J. D. DALE,
Bush House, Titusville.

WE now offer to the public and the trade the finest assortment of Diaries for 1869 that was ever shown in this market. Call and examine them.
B. N. HURD & Co.

IMPORTANT to Hotels, Saloons and, in fact, to any one wishing to purchase genuine Bourbon Whiskies. Clark, McEwen & Co. have the Agency for selling Hickett & Callaghan's Bourbon Whiskies of Louisville, Ky. We have the following celebrated brands: Old Kentucky Bourbon, Javelle, Small Grain, Old Crow. All warranted straight and pure full proof, just as they come from the Distillery. Our stock of Brandies, Gins and Wines is the largest in the country, and our prices are down to low water mark.

FOR Holiday Goods in endless variety, go to T. B. Shugert & Co's., Pleasantville.

Do not fail to go to Esler's Variety Store for your Diaries for 1869. Large assortment and very cheap.

BORDEN'S Condensed Milk, at
H. L. HERSHBERG & Co's.

IF you want a genuine Havana cigar, go to T. B. Shugert's & Co.'s drug store, at Pleasantville.

(MRS. Secretary McCulloch's Report.)

NO DECLINE IN HOUSEHOLD TREASURY.—Ten years ago I purchased a Wheeler & Wilson Sewing Machine, and have had it in constant use in my family. We used it during the war to make clothing for our volunteers in the service, and for the hospitals, and *this work* was very heavy, being coarse woollen and cotton fabrics. It is still in good working order, nothing having been broken but a few needles.

You are welcome to use my name in your recommendations. MRS. HUGH McCULLOCH,
Wife of Secretary U. S. Treasury, Washington.

To Messrs. WHEELER & WILSON.

JUST received new lot of 20 cent Poplins at R. D. Fletcher's & Co.

FIVE HUNDRED Boxes Factory Cheese just received at

FOSTER'S ROTARY PUMP AND BLOWER, Gibbs, Russell & Sherrett sole agents for the oil regions.

MRS. GORDON, milliner, of Buffalo, respectfully announces to the ladies of Titusville that she has located here for the ensuing ten days, and has on hand a selection of the latest New York Styles of Silk Velvet Cloaks, Bonnets, Capes, &c., at prices that all will buy that favor her with a call at the rooms of Mrs. Ralph, over Castle's Bros. store, Franklin street.

STILL they come! Another lot of holiday goods just received at Esler's Variety Store.

NOTICE TO THE PUBLIC.—By mutual arrangement with Bryan, Dillingham & Co., we have the right to manufacture and sell the *celebrated steel jars*, to dealers or any one else that may favor us with their orders.

Persons have been led to believe that we had not the right to make or sell these jars to all parties. *This is entirely unfirm, as we have the right and facilities to fill all orders.*
GIBBS, RUSSELL & Co.

SPECIAL NOTICES.

Undertaking.—Mr. S. J. Myers, No. 66 West Spring Street, has procured a new and elegant Hearse, to which he would call the attention of the public. There will always be found a large stock of *Metallic Cases* and Coffins on hand at his store, and particular attention will hereafter be paid to Undertaking in all its branches.

Public Notice—*To all whom it may Concern.*—The undersigned hereby give notice to manufacturers and parties making, selling or using Drilling Jars made of wrought iron and steel combined, that by virtue of certain assignments duly recorded at the United States Patent Office, we own the sole and absolute right, title and interest in three patents for Drilling Jars; one granted to James C. Bessman, 7th July, 1867, and two to Edward Guilford, in May, 1868; said patents covering all jars, made of wrought iron and steel combined, and applied substantially in the manner represented in said patents and generally known as steel jars. Any further information desired relating to said patents can be had by application to the undersigned.

All parties who shall hereafter manufacture, sell or use the same without license from the owners of said patents, will be prosecuted for infringement according to law, and all who have heretofore infringed on said patents, can arrange with the undersigned if they so desire.
BRYAN, DILLINGHAM & CO.
Titusville, July 7, 1868—jy7-tf

Mr. W. W. Russ, of No. 25 Diamond Street, has just received a new and elegant stock of Parlor, Chamber and Dining Room Furniture, which will be sold cheap for cash. COL E A ROBERTS,

General Superintendent Titusville Pennsylvania

OFFICE AT THE RED PLANING MILL

Heretofore we have in our circulars, alluded to a series of experiments being made with Nitro Glycerine and other explosives. We now announce that we have succeeded, even beyond our most sanguine expectations as regards the safety of handling also the unprecedented force and power manifested by a skillful combination whereby the size of the Torpedo is lessened and the force many times multiplied and are now prepared to operate on wells with any of the above named explosives—either with our improved combination or our old Combination Torpedo, which has a record of utility too well known to need mention here.

8 lb Nitro Glycerine, equal to 64 lbs powder.....$160
16 lb " " 128 lbs. powder..... 300
Combination equal to 100 lbs powder 150
Improved combination, eq to 150 lbs powder..... 300
Double combination, equal to 200 to 1000 lbs powder.....$300 to 500

CAUTION.—The public is cautioned against employing any but the regularly authorized agents of the Company, since their patent, according to the recent decision of the Commissioner of Patents for the United States, covers the use of the Torpedo and all other explosive materials for oil wells, and the use of such materials by other parties is a direct infringement of their rights, and we shall hold land or working interests to a strict accountability for such infringements.

The attention of oil operators is called to this new and greatly improved Water Packer, designed to accomplish all that the old seed bag does.

It is so simple in construction that any one can attach it to the tubing It is ready for use as soon as in position. It can be lowered without any trouble. It obviates all the difficulties arising from flax seed in the well There is no seam in the leather to rip or burst Nearly 150 of them are now in use and reference is made to Geo. E. Anderson, M C Martin, Samuel Woods and David Yaney Petroleum Centre Wm Gardner, Major Hewlon, F W Andrews Lewis Emery and S C Bishop, Pioneer, Asa Say, Pleasantville, Walter Thompson, and S S Fertig, Shamburg, Geo Wise, Rouseville, and many others Address P C. HEINZ,
